

## ANNOUNCING ANGELA SHEEHAN, OWNER OF LEED, LLC BOARD OF DIRECTORS

### DECEMBER 2021

NorthWest Engineering Service, Inc. is pleased to announce Angela Sheehan, owner of LEED, LLC as the newest addition to the NWESI Board of Directors.

Angela will be serving as the outside Board Member, responsible for assisting the BOD in setting company goals and reviewing performance, especially as pertains to high level strategic decisions, as NWESI continues to grow. The outside Board Member is relied on to ask challenging questions and brainstorm creative options for achieving company goals. The board member's previous experience in similar companies is particularly useful to gain insight into what other organizations are doing and bring in an outside perspective and more diverse ideas and contributions.

In Angela's case, her experience with firm growth (nationally and internationally), guiding companies through a number of trends in the construction market, and merging one business with a larger company has given her a wealth of knowledge and ideas to lead with. With this professional insight in mind, NWESI felt Angela was the perfect fit to help them grow and fur-

**“ Finding someone like Angela, who has deep experience across such a wide range of skillsets, was more than we could have hoped for when we began this process. ”**

ther develop strategic goals. In the words of NWESI President Tom Prevish, “Prior to our search for a new outside Board Member, we identified 4-5 areas of knowledge from which our company could most benefit. Finding someone like Angela, who has deep experience across such a wide range of skillsets, was more than we could have hoped for when we began this process.”

Angela currently owns her own business: Leadership Economic Empowerment and Development (LEED) that focuses on diversifying boardrooms and c-suites. She works to help bring more women into leadership, and works with organizations that are in leadership transition and for evolving professionals. Of this goal, Angela emphasizes that it's the responsibility of women in leadership to make way for other women in leadership to go further as a group.

Of her role at NWESI, Angela stated she was invested in mission-driven organizations, and that with NWESI, “Everybody is focused on high-performance buildings, but also keeping all stakeholders, clients and employees front of mind.”

NWESI is honored to have Angela join as a Board member, and looks forward to our partnership.
